5. Provide Barcode Details

ESCIMS Application	
1. Prepare an excel (.xls) file with a worksheet named 'Barcode Sequence' containing Case GTIN, Batch Number, Manufacturing Date, Expiry Date, Case SSCC and Bottle Barcode Number in one of the following ways:	
- In case mapped data was downloaded through 'Generate Barcode Sequence' functionality and the stock manufactured can use the full range of sequence numbers present in a particular Excel file – Enter the Batch Number, Manufacturing Date and Expiry Date (enter 000000 if no expiry date) corresponding to each row in that file and save the data.	
- In case of mapped data and the stock manufactured can use only partial list of a particular excel file – Select the rows that are to be used, copy and paste these rows in a new excel file, enter the batch number, manufacturing date, expiry date corresponding to each row, change the name of the worksheet to 'Barcode Sequence' and save the data. The sequence of columns must be same as in the original file.	
- In case unmapped data was downloaded through 'Generate Barcode Sequence' functionality – the downloaded file will contain Case GTIN and Case SSCC in a worksheet named 'Case Sequence' and the Bottle Barcode Number in another worksheet named 'Bottle Barcode'. Use these details to pack the material. Prepare a new excel file with a worksheet named 'Barcode Sequence' containing mapped data with following headings and in the same sequence – Case GTIN (Cell A1), Batch Number, Manufacturing Date, Date of Expiry, Case SSCC, Bottle Barcode. Each row must have a unique bottle barcode corresponding to the Case SSCC in which the bottle is packed.	
2. Select 'Provide Barcode Details' option from the SCM Menu.	
3. To provide the barcode details of a particular SKU click 'Browse' corresponding to the SKU, select the excel file prepared in step 1 corresponding to the SKU and click 'Upload'. System will display the appropriate status in the 'Status' Column. The status message will be 'Success' when the file is uploaded successfully.	

6. Print Import Permit

ESCIMS Application		
1.	Select 'Print Import Permit' option from Import Permit Menu.	
2.	Click the hyperlink on 'Stationary Serial Number' corresponding to IP that needs to be printed to select the stationary serial number on which it will be printed.	
3.	Select the radio button corresponding to Stationary Serial Number that you are using and click 'Print Dispatch Copy'. Select another Stationary Serial Number and click 'Print Distiller Copy' to print another copy of IP	

7. Dispatch against IP

ESCIMS Application

1.

Prepare an excel file containing dispatch data in the format – Cell A1 ‘IPNO’, Cell B1 ‘CASENO’ and corresponding data underneath each column.

2.

Select ‘Dispatch Against IP’ option from Import Permit Menu.

3.

Select the checkbox corresponding to the IP you want to dispatch material against and click ‘Submit’.
At the most 2 IPs can be selected against a single dispatch.

4.

Enter the export pass details, truck details, click ‘Browse’ to select the excel file prepared for dispatch, click ‘Upload’ and after successful upload click ‘Submit’.
In case the quantity as per IP does not match with the quantity dispatched, enter the reason for short supply and then click ‘Submit’.

5.

After data is successfully submitted, click ‘Print Delivery Challan Details’ to take the printout of Delivery Challan.
